

### Specifications

Triton will dazzle your senses with 3 daylight readable monitors that fold out and lock into place when onsite. Featuring a blazing fast Intel i7-700TE 2.4 GHz processor with 12 GB of RAM and 2.5 TB of storage, the onboard rugged PC can run nearly any sensor software and supports Virtual Realty (VR) graphics or analog video inputs from dive helmet cameras. All monitors are independently operated and can be used to run, view, and record a wide variety of sensors from ROVs and scanning sonars to aerial drones and radio traffic.

- Rugged, waterproof supercomputer with 3 fold n' lock daylight ready monitors
- Solid state DVR combined with over the horizon HD broadcast capabilities
- Out-of-the-box functionality - little training needed
- Award-winning 24/7 customer support and data access
- Every system is backed with our award-winning customer support.

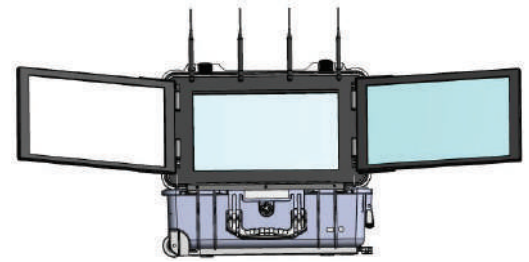

## LTE Connectivity

The Triton can be used to view and store sensor information. Dual-sim LTE connectivity enables service provider bridging to improve cell performance. Where cell or internet coverage isn't available, onboard Sylvus radios combined with dual-sim LTE connectivity enable you to stay connected when it matters most. Users can broadcast HD video and screen share from the job site to a location onshore up to 15 km away without any cell coverage.

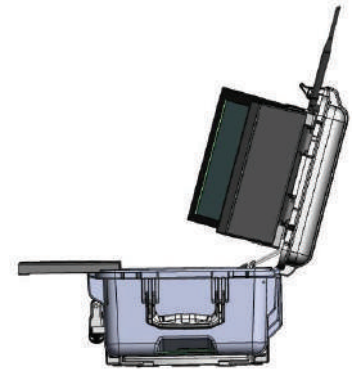

### Technical Specification

Dimensions	22" x 13.81" x 9" (55.9 x 35.1 x 22.9 cm)
Weight	49 lbs (22.2 kg)
Monitors	3 x 17.3" (44 cm) High-Brightness Widescreen Monitors
PC Processor	Intel i7-700TE 2.4 GHz
Memory	16 GB RAM
Storage	512 SSD and 2 x 2 TB HD
OS	Windows 10 Professional - 64 Bit
Exterior I/Os	AC Input (47-63 Hz, 115-230 VAC), 12 VDC Input, 12 VDC Output, Ethernet PoE, Ethernet Wan In, HDMI In, HDMI Out, Composite Video In
Interior I/Os	4 x USB 3.0 Type A, 1 x USB-C, RS-232, RS-422, RS-485
Router	Cradlepoint Multi-Carrier LTE Cellular Modem with Wi-Fi
Mesh	Mil-Spec Connector with Network and 12 VDC to Support Connection of Any Sylvus Mesh Radio
Bluetooth	Enabled
Weather Rating	IP-67

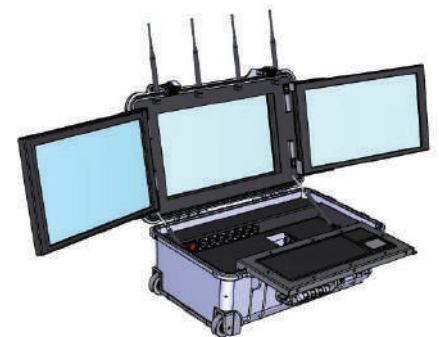

*Every system is backed with our award-winning customer support. With locations in 11 states, CPC is well-prepared to handle training, technical support, and maintenance requests!*
